

## **Enrichment Classes**

### **American Sign Language**

American Sign Language is implemented for all children ages 18 months-pre-k. Studies show sign language helps the development of linguistic, cognitive, and social emotional skills in young children and improve educational outcomes for older children.

### **Spanish**

Students that grow up learning another language enhance their cognitive skills that help with their academic readiness and school achievement in the following years of education. Learning a second language helps improve reading, vocabulary and comprehension in English. In addition, learning a second language aids in improving math abilities. The Spanish class exposes the students to basic vocabulary, basic communication phrases, stories and songs.

### **Music and Movement**

Preschoolers experience a blend of music with movement, which allows the child to enjoy the music and express themselves. The benefits of this class provides many opportunities for their social, cognitive and physical development. The class is full of energy and excitement for large muscle coordination and development.

### **Bible Story with Praise and Worship**

Praise and worship is a wonderful time to sing, dance and make a joyful noise to celebrate God's love for all. The class incorporates a relatable Bible story in terms that the children can comprehend. Language development along with large motor muscle groups are incorporated during this class time.
